Item: 6

Return of Supplied Equipment

Summary:
Instruction to competitors for return of equipment

Details:

Please check your equipment before the final day to avoid delays and time spent looking for missing parts during equipment inspection. Thank you for your help.

Board and accessories

Rinse your board

Leave the footstraps attached to the board. Check that all 6 footstraps are ready to be returned

Remove the daggerboard case

Make sure you have the Allen key

Remove the fin and screw both screws back into the fin

Remove the mast foot joint

Rig

On returning to the beach after the last race, rinse your rig and leave it fully rigged for sail inspection. Do not dismantle it until the inspection is complete.

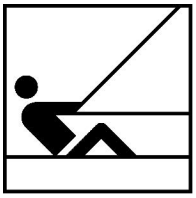

After inspection, roll up the sail and place it in its bag.

Separate the mast into its two sections and remove the tape from the downhaul rope attachment.

Check that you have all original ropes, including the uphaul.

If you used your own rope for the front-end lever, refit the original rope.

Remove the harness-line tape from the boom.
